

AUTOMATIC BARRIERS

PURPOSE

Automatic barriers
GARD4 E-EZ and GARD8 E-EZC series

TYPE OF INFORMATION

Phase-Out

DESCRIPTION

We inform you that as of 30 June 2021, some models of the GARD 4 and GARD 8 range will go out of production but will still be available while stocks last.

CAME guarantees full availability for spare parts to service existing systems. As an alternative, the new automatic barriers GARD GT4 and GARD GT8 are available, dedicated to residential and industrial contexts, equipped with innovative technical features and functions, tested for intensive use up to 350 cycles/hour and MCBF 3,000,000 cycles.

To discover all the innovative features and functions of GARD GT4 and GARD GT8, please visit the website www.came.com/uk/gt

The codes involved in the phase out operation are indicated below:
